HOPsea "Human Origins Patrimony in South-East Asia" A large part of humankind finds its roots in Southeast Asian world-widely famous human origins heritage. Beyond national and bilateral current programmes, the HOPSEA project, grouping 9 institutions from France, Germany, Indonesia, Netherlands and Philippines, aims to build an expert network able to overstep the threshold between research and valorization of the patrimony. This second issue of HOPsea Milestones presents the main activities related to the network, carried out in 2006.
